25X1

MEMORANDUM FOR: See Distribution

25X1

SUBJECT: Mission Reliability Briefing by [REDACTED]
[REDACTED]

25X1

1. [REDACTED] has been working with RP/ORD to conduct an in-depth system analysis of mission probability of success for stay-behind systems. The primary objective of this study program is development of a realistic mission probability model usable by Agency personnel in planning and conducting R&D toward operational missions.

2. On Wednesday, 5 February, at 0930 hours in room 607, the contractor will give a one-hour briefing to summarize the approach used and the model developed to date. The briefing is intended to solicit comments from interested ORD personnel prior to writing the final study report. A copy of the tentative report outline is attached.

25X1

3. Please notify [REDACTED] extension 3505, if you plan to attend.
